## What is a Griffin?

The Griffin is a mythical creature of supposed gigantic size that has the head, forelegs and wings of an eagle and the hindquarters, tail and ears of a lion. They are well known for their speed, ability to fly and having eyes like an eagle as well as the strength and courage of a lion.

Griffins have been known for centuries as symbols of strength and vigilance, have been called "The Hounds of Zeus" in Greek mythology and are said to have mastery of both the land and sky.

They are thought to be from India, where the natives of the land made their talons and claws into drinking cups because the talon of a Griffin was said to detect poison in a liquid. Griffins would find gold in the mountains and line their nests with it and as a result, were forced to become great guardians of the nests to keep the hunters away.

**PERSONAL**

- Ivan is the son of Milos and Dragana Hadzic.
- Has one brother, Igor.
